Chariton	146.835 +	123.0
Ottumwa	444.850 +	100.0
Storm Lake	146.775-	110.9

Notes: The Storm Lake repeater is linked into the rest via the ICN.

Location	Frequency	PL
Grimes	443.400 +	151.4
Cedar Falls	444.650 +	136.5
Baxter	444.225 +	151.4
Newton	442.300 +	151.4
Afton	442.400 +	151.4
Kelley	444.425 +	151.4
Marshalltown	444.525 +	151.4
Chelsea	442.125 +	151.4

Location	Frequency	PL
Bedford	147.135 +	203.5
Des Moines	146.820 –	203.5
Pella	145.170 –	203.5
Waterloo	444.900 +	203.5
Davenport	146.940 –	203.5
Mason City	147.315 +	203.5

Note #1: For local use only (no ICN access) on the Waterloo repeater, use a PL tone of 136.5.

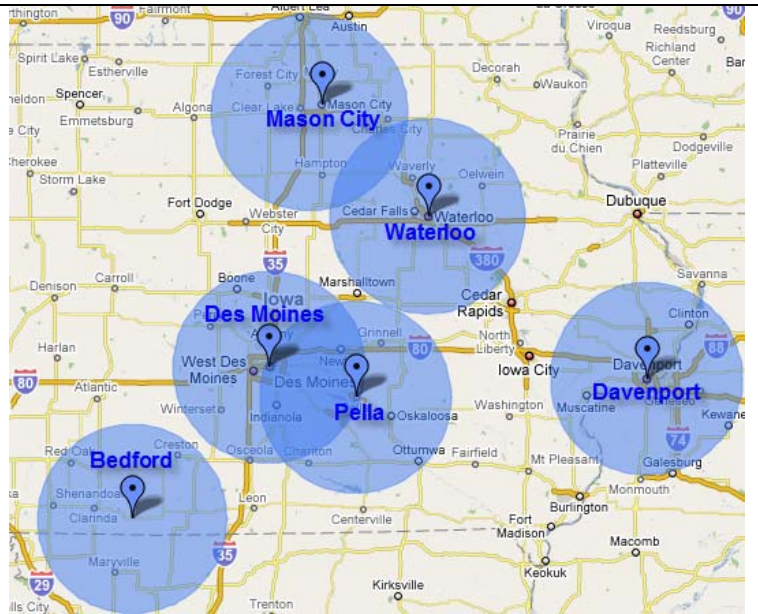

Note #2: For local use only of the Des Moines Hub, use a PL tone of 114.8.

Note #3: For local use only of the Bedford repeater, use a PL tone of 127.3.

Note #4: For local use only of the Davenport repeater, there is no PL tone.

Note #5: For local use only of the Mason City repeater, use a PL tone of 103.5.

These repeaters are linked to the main Des Moines Hub via the Iowa Communications Network fiber optic system. You must have the PL tone turned on to access the ICN Hub and the remote repeaters.
